	Cki-2-MC	Cki-4-MC	Cki-6-MC	And More...
Temp. Range	As required.	As required.	As required.	As required.
Capacity	2 Body storage	4 Body Storage	6 Body Storage	As required.
Controller	Digital temperature controller cum Indicator			
Outer Panels	Outer panels are made of GI coated/ CPRCA sheet/Stainless Steel			
Interior Panels	Interior panels are made of Stainless Steel			
Door	Standard hinged door with Double gasket seal between the door and the cabinet increases system efficiency.			
Insulation	Polyurethane foam insulation with a thickness of 50mm or More			
Body Trays	Body tray made of Stainless steel.			
Interior lighting	Interior fluorescent lighting.			
Castors	Castors for minimal effort mobility			
Refrigeration system	Hi-Tech refrigeration system with rapid recovery.			
Compressor	Heavy duty Air-cooled compressor. The compressor is distinguished by its excellent performance and minimal vibration.			
Condenser	Highly efficient air cooled condenser			
Evaporator	Internal evaporator system Forced draught			
Refrigerant	Non-CFC/HCFC environmental friendly based on compressor capacity.			
Air Circulation	Forced air circulation to maintain chamber uniformity.			
Alarms	Audio-video alarm system to warn of high or low temperature.			
Power Supply	Single phase / Three Phase based on requirements.			
Optional	Temperature Recorder (seven days)			

Mortuary Cabinet Construction:

Coolking India maintains the standards with forward thinking design and technology with finest levels of quality construction. Designed detail by detail with Attractive Color and Ergonomic Design in addition to pass-thru dimensions that fit through standard doorways.

OUTER PANELS	Outer is made of Pre-coated GI Sheet/Stainless Steel sheet of suitable thickness & grade .
INTERIOR PANELS	Durable Stainless Steel (304) interiors to give better life and makes cleaning easy providing hygienic conditions.
FLOORS	Stainless steel Recessed floor contains spills for easy clean up.
DOOR	Standard hinged door with Double gasket seal between the door and the cabinet increases system efficiency.
INSULATION	Polyurethane foam insulation with a thickness of 50mm.
INTERIOR LIGHTING	Interior fluorescent lighting.
BODY TRAYS	Stainless steel body tray.
CASTORS	Swivel locking castors for minimal effort mobility.

Mortuary Cabinet Refrigeration:

Strong and reliable with powerful quick response refrigeration, an exclusive long life **Coolking India** superior refrigeration process is a unique feature of our Mortuary Cabinets.

COMPRESSOR	Heavy duty Air-cooled compressor. The compressor is distinguished by its excellent performance, low noise level (<60dB) and minimal vibration.
CONDENSER	Highly efficient air cooled condenser.
EVAPORATOR	Internal evaporator system Forced draught where fans shuts off during door openings.
AIR CIRCULATION	Forced air circulation to maintain chamber uniformity.
REFRIGERANT	Non-CFC/HCFC environmental friendly refrigerant based on compressor capacity.

Mortuary Cabinet Controls & Alarms:

The unit is fitted with digital electronic temperature controller cum indicator for easy readability along with audio-visual alarm system.

Mortuary Cabinet Optional Features:

- Temperature monitoring (Recorder 7 days)
